Bareilly, Uttar Pradesh | +91-8273068968 | ai24shrishti@rbmi.in | linkedin.com/in/shrishti-raghav-679526369 | https://github.com/Shrishti08raghav

PROFESSIONAL SUMMARY

Motivated B.Tech 2nd year student in Artificial Intelligence & Data Science with hands-on experience building Computer Vision systems, Machine.I am very passionate about Arthificial intelligencece. Learning prototypes, and OpenAI API integrations using Python. Skilled in NumPy, Pandas, OpenCV, and MediaPipe.

TECHNICAL SKILLS

AI / ML:	Computer Vision, OpenCV, MediaPipe, OpenAI API
Languages:	Python, C, SQL (Basic), HTML5, CSS3, JavaScript
Data Science:	NumPy, Pandas
Tools:	Git, Tkinter, Figma, Canva

PROJECTS

Phantom Mouse – Gesture-Based Virtual Mouse	<i>Python OpenCV MediaPipe 2026</i>
- Built a hardware-free virtual mouse using real-time hand-landmark tracking via MediaPipe and OpenCV, enabling cursor navigationthrough gestures. - Applied mathematical smoothing constraints to optimize cursor responsiveness; mapped gestures to left/right click actions acrossvaried lighting.	
AI Crop Detection System	<i>Python OpenCV In Progress</i>
- Developed an automated image processing pipeline to classify and segment agricultural crop varieties using edge detection andfeature extraction. - Optimized high-resolution image parsing to reduce computational overhead in agricultural dataset analysis.	
AI Idea & Startup Generator	<i>Python OpenAI API In Progress</i>
- Integrated OpenAI API with engineered prompt sequences to generate structured, domain-specific business and startup frameworksfrom user inputs. - Built Python backend to manage API tokens, error handling, and contextual conversation persistence.	
Book Hub – E-Commerce Web App	<i>HTML5 CSS3 JavaScript 2025</i>
Designed a responsive front-end for digital book rentals with semantic HTML5, custom CSS3, multi-criteria filtering, and cart checkoutsimulation.	
Expense Tracker Desktop App	<i>Python Tkinter 2026</i>
Created a Tkinter GUI application for personal finance tracking with persistent file-based storage to log, categorize, and update dailyexpenses.	

EDUCATION

B.Tech — Artificial Intelligence & Data Science	<i>2024 – 2028</i>
Rakshpal Bahadur College of Engineering & Technology, Bareilly (AKTU) Coursework: DSA, OOP, Python for Data Science, Discrete Mathematics	
Class 12th (PCM)	<i>2023 –</i>
Kanti Kapoor SBVM, Bareilly	<i>2024</i>
Class 10th (PCM)	<i>2021 –</i>
	<i>2022</i>
Kanti Kapoor SBVM, Bareilly	

CERTIFICATIONS
